July	Jerry Kriebel	
Card Drawing	Michael Pease	7s
Wine	Charlie Reppenhagen	

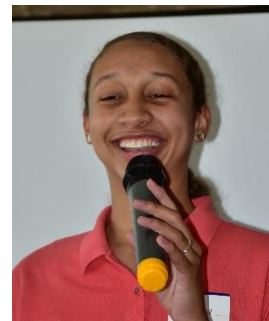

Paul Harris+1 Pins

Past President **Julie Reppenhagen** presented Past President **Katie Carter** and Secretary **Michael Pease** with Paul Harris+1 pins. Last week she had named them both as Rotarians of the Year, **Michael** for his work behind the scenes and **Katie** for her work with Interact and our community's youth.

Scholarship Student

Bill McCreery introduced **Morgan King**, who will receive this year's Stevens Scholarship for home-schooled students. She likes math and will study business at Pima. She also likes music and is part of a coffee house group that performs at Posada Java on the 2nd Wednesday each month from 5 to 7. And, she has 9 siblings.

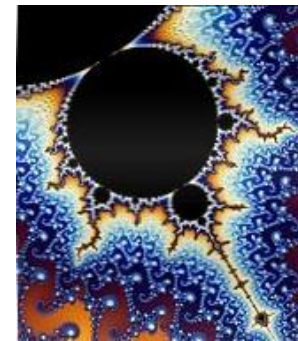

Other News

Vocational Chair **Marvin Hass** told us we actually have a 2nd AZ Vocational Scholarship student, **Arlene Nuñez**, who will attend Pima Medical Institute and will say hello to the Club shortly.

Also, **Joyce Finkelstein** is inviting anyone with a special story to contribute next week let her know.

Math, Art and Nature

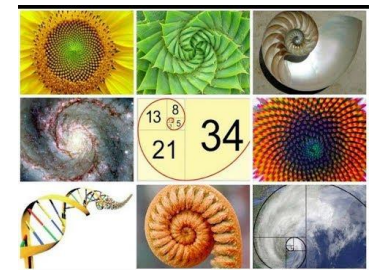

Secretary **Michael Pease** shared 4 short videos with the Club as a kind of fill-in program, full of complex math and visuals. A simple repetition of squaring and adding a complex number either leads to 0 or flies off to infinity. The computer "artist" chooses a color scheme for the points flying away and chooses where to "dive down" into

the resulting Mandelbrot Set. The result was over 5 minutes of what in the 60's would have been a trippy light show.

He transitioned with a talk by a mathematician from Cambridge who showed how the famous Fibonacci

Sequence shows up in the branches of the Mandelbrot Set, and then showed a very artistic video from Spain on the role of the Fibonacci (Italy, 1170) Sequence in nature. It defines the spirals in pinecones, snail shells, sun flowers, and many other things.

The Rotary Club of Green Valley
