**District 5500 Grant**

**Pat Pease** gave the Club a summary of the \$2000 District Matching Grant we will be involved in this year. It funds the READS program at the new Wrightson Ridge Elementary School in Sahuarita and provides over 200 books at reading levels from 0 to 3<sup>rd</sup> grade, 2 books carts, materials to cover the books and level them, tote bags, and awards. The project will need Club volunteers to help cover the books this Fall, and to help tutor kids after Wrightson Ridge opens in February.

**Scholarship Student**

**Lindsay Baez** came to the US at age 4, was in the READS program in 8<sup>th</sup> grade, and at SHS she was in the National Honor Society, MESA, and ROTC. She did a lot of community service projects. She will take pre-business and accounting at U of A and plans to join the Air Force.

**Coming Events**

- **District Conference**, September 28-29, Doubletree, Tucson

**Vocational Minute**

**Scott Lamb** told us about his career in the Seattle area after the Army. His business washing auto parts involved a fair amount of interaction with the government, and in the 1990's he transitioned to working with the

government for 25 years in pollution prevention programs. The work took him "all kinds of places," and at one point he taught Boeing to save millions by using their 70,000 tons of nitric acid per day 12 times instead of just once.

**Saudi Arabia**

**Chris Johnson**, who joined Rotary in 2003, has travelled to more than 80 countries and made up Rotary meetings on every inhabited continent. He reminded us that Saudi Arabia is the home of both Islam and ancient civilization, and it gave birth to medicine, algebra, and science between the decline of Greece and Rome and the Renaissance. He spoke at length of KAUST – King Abdullah University of Science and Technology – which was built in just 3 years and is the 3<sup>rd</sup> best endowed university in the world with a 1-billion-dollar operating budget. He said the nation is still in transition from ancient to modern ways. 2/3 of Saudi workers are employed by the state, but foreigners make up 80% of the private sector payroll. In 2015 more than 70% of the government's revenue came from oil. Their vision for the future includes a great deal of tourism. 60% of the population is under 35 and have high unemployment. Women are beginning to get better education and enjoy more freedom.
