

## Country Fair Cookout 2005

### Recommendations

1. If we order Reisers potato salad, we should figure 4 ounces per person. For 448 servings, we would need 1,800 ounces or 112 pounds. We only ordered 72 pounds and Father Mike had to make a mad dash to Sam's Club for more and we still ran out. We might want to consider having Arizona Family Restaurant make the potato salad since they make the baked beans. Reisers is very tasty though.
2. If we do order Reisers, we can order through Mark Dugan at La Posada. They had it delivered to their kitchen and stored it in their refrigerator until we needed it. That worked well. It comes in small containers that store easily.
3. Health Dept. Inspector wants to know if beans are fresh or canned. It makes a difference for temperature beans are cooked in.
4. We should consider purchasing a medium to large size metal bowl to serve the potato salad as well as a deep pan to fill with ice to sit the bowl in to insure keeping the salad cool.
5. We had several students from Inter-Act helping us as runners and to clean up. If we don't have them this year, we will need a large clean up crew. Moving the tables and chairs back upstairs is hard work if you don't have enough people.
6. Last year John Prinenger said he didn't want to be involved in arranging for the Johnsonville cooker. Check with him early. If he still doesn't want to be involved, call them direct. Kenny DeBrick (602) 509-8466.
